North Lakhimpur, Assam, 787031

SKILLS

- Full Stack Web-Dev
- Linux Maintenance
- Front End Coding
- Back-End Coding
- Problem-Solving
- Computer Literacy
- IT Support
- Strong Communication

EDUCATION

SECONDARY SCHOOL

St. Mary's Higher Secondary School

2010 - 2020

CERTIFICATIONS & TRAINING

Python Programming –
Coursera
2024

NVIDIA Deep Learning
Institute (DLI) –
Fundamentals Certification
2024

LANGUAGE

English
Hindi
Assamese

ARINJOY.S. SAIKIA

FULL-STACK DEVELOPMENT TRAINEE

I am a motivated and detail-oriented developer building my foundation through hands-on experience in frontend development, Python programming, and Linux systems. I've completed industry-recognized training through Coursera and NVIDIA's Deep Learning Institute, and I am currently sharpening my practical skills as an intern at Future Interns. I bring curiosity, discipline, and a problem-solving mindset to every project, with a strong focus on learning fast and delivering clean, functional work.

EXPERIENCE

FRONTEND DEVELOPMENT INTERN

Future Interns

2025 – Present

- Assisting in building and maintaining user interfaces using HTML, CSS, JavaScript, and modern frontend workflows.
- Collaborating on small real-world tasks including UI tweaks, bug fixes, and component improvements.
- Working in a Linux-based development environment and gaining hands-on exposure to Git, project workflows, and version control.
- Contributing to team discussions, documentation, and completing assigned tasks within deadlines.

INDEPENDENT PYTHON DEVELOPER (PROJECT-BASED)

Self-Initiated Projects

2021 – 2025

- Completed Coursera's Python Programming track and built beginner-level Python scripts for automation and problem-solving.
- Wrote small utilities involving file handling,, and simple and logic-based tasks.
- Practiced debugging, clean coding habits, and modular code structure using real exercises and practice sets.

LINUX SYSTEMS LEARNER & OPERATOR

Self-Learning (Garuda Linux / Dual OS Environment)

2018 – Present

- Began early exploration of Linux systems through command-line basics, scripting, and simple automation tasks.
- Gradually advanced into system maintenance, optimization, and troubleshooting on modern Linux distributions.
- Worked with package managers, shell scripting fundamentals, environment setup, and performance tuning.
- Continued expanding knowledge through hands-on use, daily tools, and self-driven experimentation.

PROJECTS

RESPONSIVE PORTFOLIO WEBSITE

Tech: HTML, CSS, JavaScript

- Built a personal portfolio showcasing skills, experience, and learning journey.
- Implemented responsive design for mobile, tablet, and desktop.
- Used clean layouts, modern UI principles, and simple animations.

LINUX SYSTEM SETUP & OPTIMIZATION

Tech: Linux (Garuda), Bash, Fish

- Configured dual OS environment with custom workflows for coding and gaming.
- Performed system optimizations, GPU tweaks, and shell-based configurations.
- Managed package installs, system backup, and troubleshooting.

TECHNICAL SKILLS — DETAILED

FRONTEND DEVELOPMENT

- HTML5
- CSS3
- JavaScript (Basics)
- Responsive Design
- UI Tweaks & Bug Fixing

BACKEND / GENERAL DEV FOUNDATION

- Python
- Simple APIs
- Command-Line Tools
- Basic Bash scripting

LINUX SYSTEMS

- Shell commands
- Environment setup
- Troubleshooting
- System optimization
- Dual-boot management

TOOLS & SOFTWARE

- Git & GitHub
- VS Code
- Garuda Linux
- Blender (Basic 3D modelling)
- Simple video editing tools

ACHIEVEMENTS & CERTIFICATIONS

- Python Programming – Coursera (2024)
- NVIDIA DLI – Fundamentals Certification (2024)
- Completed multiple self-driven Linux optimization workflows
- Developed and maintained personal systems through hands-on learning

STRENGTHS

- Strong problem-solving mindset
- Fast learner, highly adaptable
- Good communication and teamwork
- Self-driven, motivated, and disciplined
- Curious and willing to explore new technologies
